

DISCLAIMER:

In this report Scott (the author) refers to the “CUBICLE” as a place of disdain and loathing. This reference is intended as a general reference to describe where you exchange your life for money and is not intended to hurt anyone’s feelings. Scott realizes that many people become emotionally attached to their cubicles from spending more time in them than they spend with their families or doing fun stuff. Scott realizes that the cubicle can for many become a place of safety and security and intends no harm or ill will toward the cubicle. In fact Scott implicitly urges the reader of this report to not take out your frustrations on your cubicle by realizing that the cubicle is not at fault. The author, his heirs, assigns, employees and contractors accept no responsibility for any harm or damage inflicted on any cubicles.

TheOilMoney.com

WWW.TRADING-SOFTWARE.ORG

I show ordinary people how to make \$100 to \$900 a day scalping the oil market.....

Now you gotta admit, that is one hell'ova promise.....

My philosophy is Live your Purpose and Love your Life by getting rid of that nasty, inconvenient, and life zapping habit of working for money.

I don't blame you for being skeptical when you hear earnings claims, but if you will stay with me for just a few minutes, I'm going to show you HOW TO:

1. Earn \$100 to \$900 a day scalping the oil and futures markets even if you don't have a clue what that is right now
2. Use one simple strategy we call JOBB to average \$250.00 in just a few seconds and repeat it several times a week (separate program not included with TOM membership)
3. Do what Joe C. did and walk away from your job by becoming a specialist in one simple strategy
4. Use our state of the art simulator to practice till you are proficient without risking a cent
5. Avoid the so called experts who charge a fortune just to confuse you
6. Discover if this is even a good fit for you before you spend any money with our 30 day money back guarantee
7. Work directly with me and my other students and members who meet every Friday on a Live Webinar
8. Join our Trade Room where our expert traders call out trades, executions, and analysis throughout the trading session (separate program not included with TOM membership)

I'VE HEARD IT ALL TOO

Listen, nobody knows better than me how much garbage is out there promising the world and never delivering anything but disappointments and heart ache. I actually developed this entire program after becoming disillusioned with a program I paid \$500.00 for and promised to show me how to trade and make a fortune.

I WAS A SUCKER

It didn't take long to discover that this trader who was supposed to be teaching me didn't know his ass from a hole in the ground and within a few months I dropped out. For several days I just sat there staring at the chart depressed and pissed off because the riches I was promised was a big fat lie.

TheOilMoney.com

WWW.TRADING-SOFTWARE.ORG

DISAPPOINTMENT LEADS TO DISCOVERY

But as I sat there staring at the chart, I began to notice some patterns repeating themselves, all of a sudden my posture changed and I sat up straight, sort of like having an AHAH moment, or the light bulb going off in my head, or a “Holy Shit could this be true, I think I see something here” kind of moment.

Well, I continued to watch, and then I scrolled back on the cart and saw these same patterns repeating over and over and over and I began to get excited.

Then I started looking for the patterns on a live chart in the simulator.

The coolest part of this whole thing is we have a simulator we can use to test trades that doesn't cost anything but it's exactly the same as trading live except for the emotional part that I will cover later in this report.

Anyway, so I'm hunting for these patterns and finding them everywhere, and it looks like every time this pattern develops (I call it a range) it eventually breaks out in one direction or another. So, I

figured if I see a range of 3 or more candles there is a good chance that it's going to break up or down pretty soon, so I would put a bracket up which basically means I would put up a LONG trade and a SHORT trade about 5 ticks above and below the range and wait for it to break out.

CLICK TO WATCH VIDEO

Here is a really fast video of what I'm talking about.

Sure enough, it worked enough times for me to give it a name and start this program and I named it the SX3 Protocol. That's just a cool name for Scott's Straddle Strategy, get it? 3 S's or S times 3, or Scott's Straddle Strategy.

WE'VE COME A LONG WAY BABY

Well, that was way back in late 2010 and we've come a long way since then. Since then several people who have come on board with me have each developed their own strategies and methods of trading.

How cool is that, I started something from scratch and inspired others to discover how simple it is to use the charts to make money and even find a method to call their own. It's just amazing, and it makes me incredibly proud to have been the one who started it all

out of sheer disappointment that what I expected was the greatest thing turned out to be pure garbage, but then I turned it into the greatest thing. In the movie Time Bandits their quest was to find the *MOST FABULOUS OBJECT IN THE WORLD*, and completely by accident, I actually stumbled onto something that has become that for many, in fact, the gateway to discovering a way out of the cubicle

and a realization that with a little bit of practice and the right guidance, you too can escape the madness, you too can be emancipated from whatever you are doing that you hate or that you no longer want to do.

WORKING FOR MONEY

Let's face it, most of us work for money so we can have a life. What I mean is, if we had enough money to live the way we wanted to we would probably not be doing what we are doing for money.

Now I know a lot of people are going to say silly things like "but I really like my job" or "at least I don't hate it" or "everybody has to do something they don't like" to which I say HOGWASH !!!

HOGWASH I SAY

Think about this for just a quick minute, think about this simple question:

If you could earn \$100 to \$900 every morning between 9AM and 10AM New York time, would you continue doing what you are doing now for money?

Try to be completely honest, think about it this way; if you knew someone was going to knock on your door every morning and hand you, say \$500.00 then turn around and walk away till tomorrow morning.

then the next day and every working day after that the little guy shows up with your 5 \$100 dollar bills. Would you then take the money, put it on the counter, head for the shower and get ready to go sit in your cubicle all day or your plumbing truck or your office or law office or whatever place you now go to for money?

I TRADED MY LIFE FOR DOLLARS

If you are working for money that is exactly what you are doing, trading your life for a few dollars so you can have a life on the weekends. Is it worth it? I don't think so but only you can make that decision.

I know you have probably looked into other things you can do to make a few extra bucks so you can have more to spend on those precious weekends, so you can buy your wife or girl friend some special thing or take her to some special place or give your kids, your mom, your loved one or yourself something special?

How painful is it to have tried all these other things only to realize the only reliable thing is the cubicle. Well, I'm here to tell you that if you will just give me a try, I will show you a way out of your cubicle, and I will show you in a short period of time. And if you decide that within about a 29 day period my program is not for you, it will have cost you nothing, not a single cotton-picking red cent.

I'll be the first to tell you that what I'm talking about is not for everybody, and for that reason I've made it super easy for everyone to check it out.

But just think about it; think about how cool it would be if it was for you. We have people from all walks of life doing this successfully every day people like:

Bartenders Petroleum Land Man Nuclear Engineers Stay at Home Moms Stay at Home Dads Shop Keepers Plumbers	Cable Installers Call center operators Real Estate Agents Professional Futures Traders Musicians College Professors Chiropractors....the list goes on...
---	--

To make a long story short, anyone can do this and I'll prove it to you, but let me get back to my story and explain what we do and how we do it.

SO CUT THE CRAP AND TELL ME WHAT YOU DO ALREADY

OK, gee wiz, give a guy a break, I'm just a little slow getting to the point, but I think it was important to give you a little history so you could understand that this program came from a real desire to find a way out myself and when I found it I wanted to show others what I had found, and you can't make shit like this up, I'm serious, you just can't make this stuff up and I'm going to prove it to you.

The system I developed was good, but people who came after me made it even better, but before I tell you about that, let me give you a quick snapshot of what it is we do and how you can check it out for yourself without spending a penny.

WE SCALP OIL

Watch this quick video to get a real look at what I'm talking about. Now before you click on the video, for crying out loud, check your negative attitude at the door. Seriously, there is a learning curve to everything, and this is no different. The first time you see it, it will look a little strange, you won't know what a candle is or a stop loss or an ATM strategy or any of that stuff, but I will teach you all that stuff in just a few minutes.

What's important here is that you focus on the action and realize that I am going to show you how to recognize these very patterns and then I'm going to show you how to do the necessary mouse clicks to get into and out of a trade. Simple, right?

OK, now you can click on the monitor and watch the video and I'll meet you back here in a few minutes.

CLICK TO WATCH VIDEO

Was that great or what? Now just imagine yourself sitting at your computer in the morning hunting for a pattern and when you find one you put up your trade and in a flash earn several hundred bucks. Do you think you can do that?

If you do, then read on, and if not, then say hello to your cubicle tomorrow morning and leave us alone.

Listen, of course you can do this, and I'm going to show you over and over and over again how we are doing this simple little strategy every day and making money.

But first let me tell you about Aldo.

The Meditative Trader

Aldo came on board with The Oil Money and little did I know who this dude was. Turns out he was a child prodigy and at the age 17 became one of the most accomplished guitar players in the world. He went on to tour the world with his guitar and when he burned out on that, being financially well off, he turned his attention to meditation and introspection.

When he took up meditation, he did it in the same All or Nothing way he first took up the guitar and next thing you know he's spending 8 hours a day meditating. After a few years of that he realized it was a big waste of life and then he became one of the most sought after and successful Financial Internet GURU's in the Spanish speaking world.

Aldo becomes the best at everything he touches, he can't help it it's just how he is wired.

He is a deeply introspective and forward thinking man, and it's one of the greatest privileges of my life to count him as a friend.

By some wild twist of fate, he found me and The Oil Money and now he's gone on to become a fully accomplished trader with a complete understanding of all the complexities of trading. In fact, he has read over 70 books on the subject of trading, traveled all over the world and tutored under some of the greatest traders in the world.

I hate to distract you from your reading, but if you've got 17 minutes, check out this video and find out who Aldo really is.

CLICK TO WATCH VIDEO

THE MEDITATIVE TRADER
Aldo Lagrutta

And what the heck does all that have to do with making money scalping oil. Well, like I said, anybody who can learn to play a musical instrument like that and then applies the same dedication and obsession to any other endeavor will probably do it better than anyone else in the world, also.

So, out of all this was born one of our advanced programs that we call The Meditative Trader which is a comprehensive course that teaches all the GOLD nuggets extracted from the volumes of study that only a guy like Aldo could undertake.

Now, I said this was going to be easy right, and it is, and I'm not going to ask you to learn all this stuff Aldo knows. I just asked Aldo to put all the GOLD in a simple and easy to understand course for those who want it.

Now let me tell you about another one of my students/members who started right here with The Oil Money.

JO Bracket Breakout

OK, so Jay joins The Oil Money in early 2011 and starts trading the SX3 Protocol.

Jay's cubicle happens to be a Nuclear Submarine and like any cubicle dweller, he's looking for a way out. Not that he doesn't love the work in his submersible cubicle, twenty thousand leagues under the sea, but you get the picture; it's still a cubicle.

First he drives me crazy with a million questions over an equal number of weeks and I just can't satisfy this guy, it's like I've got another Aldo on my hands except different this dude thinks I know what the hell I'm doing, Aldo saw right through me.

What I mean by Aldo seeing right and he knew that he could not learn sought it out on his own, Thank The

through me is that he realized my limitations everything he needed to know from me, so he Lord.

Not Jay though, he kept asking me a seeing the simplicity of it all and loosely on the SX3 Protocol.

million questions until he finally started came up with his very own strategy based

SO WHAT DO NUCLEAR ENGINEERS DO ANYWAY?

They solve problems like nobody's business, that's what, and that's exactly what Jay did.

When we introduced Aldo's Meditative Trader program, Jay was one of the first to jump on board.

Like Aldo, Jay has a big brain and is able to absorb and analyze every angle and every strategy that Aldo teaches in TMT and he was able to use that and some of what he learned from me and put it all in his brain blender and came up with what we now call JO Bracket Breakout

Now for all you lazy cubicle dwellers like me, this is the greatest and easiest way to make my promise come true, but don't take my word for it, check out this video and see for yourself how it works.....

TheOilMoney.com

WWW.TRADING-SOFTWARE.ORG

CLICK TO WATCH VIDEO

Holy Mackerel did you see that?

Better check your socks because mine just got blown off big time.

OK, so now we have me, then Aldo and The Meditative Trader, and now Jay and JO Bracket Breakout, so what's next?

SO GET TO THE POINT ALREADY

ARIGHT AREADY.....RELAX, TAKE A COUPLE DEEP BREATHS, I'M GETTING TO IT. But first I've got one more story to tell ya.

Well, what's next is another amazing person and great story, and it's really important that you keep reading or I'll have Joe bust you up real good you know what I'm sayin?

Hey, just kidding, I'm just playing around with you cos Joe is an X bartender from South Jersey and he's like, a real wise guy, you know, I'm talkin old school hey, you get the picture?

OK, so Joe joins The Oil Money and he's working his cubicle tending bar in some joint in South Jersey. I think he found us on Craigslist or something when we first started.

He jumps into TMT and comes out having learned one thing. He takes that one thing he learned and specializes in it. I mean he studies it and sim trades it until he's a specialist.

Like I said, Joe's old school so he keeps all this to himself, he don't tell nobody nothing, you know what I'm sayin?

Every once in a while I'd get an email from him telling me something like, hey, yo, I just can't see myself serving rum-n-cokes to assholes till I'm 65, I gotta find a way out.

Next thing I know he tells me he quit his cubicle 3 months ago and he's been doing this one scalp every day first thing in the morning and then he goes to the beach or does some other thing he loves.

Are you kidding me, I said, and when exactly were you going to tell me about this?

"Well, that's what I'm doing now"

I couldn't believe it so we started talking and some time later we were on the phone together and he started talking and I said hold on brother, this is too good to waste so I started recording our conversation.

DO NOT CLICK WATCH VIDEO IF YOU ARE EASILY OFFENDED BY A LOVABLE YET FOUL MOUTHED JERSEY WISE GUY

CLICK TO WATCH VIDEO

Hey, I warned you OK, so he's got a mouth on him, but I wanted to illustrate how 3 different people from 3 different planets have been able to use the information in The Oil Money to create their own cubicle outside the cubicle.

Now, I want you to tell me that whatever planet or cubicle you live on or in, you can't find your way out right here with us and The Oil Money.

There are other stories and they are great stories too, but I can't let this go on forever or you will just get bored and tune out, right?

I know you are only interested in what you can get out of this, how you can get out of your cubicle, and that is what this whole thing has been about.

It's been a fun little journey and I'm glad you've taken the time to come with me. Now you have a decision to make and it is this:

- WILL YOU RISK NOTHING TO GAIN EVERYTHING?
- WILL YOU RISK NOTHING TO FIND YOUR WAY OUT OF YOUR CUBICLE?
- WILL YOU RISK NOTHING BY CHECKING US OUT TO SEE IF THIS MIGHT BE THE PATH FOR YOU?

I invite you to risk nothing and come inside and take a look around. Join me and the rest of the gang on our Friday webinar and find out if this is right for you. I want you to find the answer that's right for you.

Come on, you have nothing to lose JOIN US NOW (click yellow button below)

YES! Let Me In!

ONE THING'S FOR SURE

You now have a way out of your cubicle, it will be up to you now if you will make pre-judgments about what I'm offering and excuses for why you can't participate, or if you are like the others who have already found this to be their path out of hell.

That's all you have to do is check it out, nobody's asking you to risk anything, so stop being so skeptical and take a serious look around.

With our 30 day money back guarantee you are risking nothing and it's only \$47.00. And speaking of the cost let me go over that again in more detail so that you are crystal clear on how this works.

www.TheOilMoney.com is our member site and to be a member costs \$47.00 per month. You can cancel anytime you want and if you do it within 30 days of joining, you will receive a complete refund and we part friends.

If you do stick around, here is my promise to you. I will help you navigate your way into scalping and through example show you how I do it and how others in our group are doing it.

You will learn from all of our resources including our step-by-step user guide that was created by one of our members TinaMarie, and from countless instruction videos created by me and many of our members with new ones being added weekly.

You will also have access to our Friday morning webinars that are always recorded and posted in the member's area if you happen to miss one, you can always review it later at your convenience, and as a member, you can attend all of the past webinars.

Our members are very proactive and love sharing their experiences and trades and discoveries with the group and it is a great way to learn.

I send out video and email updates regularly to keep you up to the minute. Some of our members have gone on to become professional traders, but most remain ordinary scalpers who just go into the market for a short time in the morning to extract what they need every day to live the life they want.

If and when you want to expand your knowledge we have The Meditative Trader by Aldo which is by far the best in depth course on the subject and Aldo and I are always expanding and adding to it. We also allow you to take a test drive before you buy so you can see if Aldo's method and style are suitable for you. We make every effort to make sure you never buy something that is not right for you.

We also offer specialty courses like Jay's JO Bracket Breakout and others to our members for substantially reduced prices which is another awesome benefit of membership in www.TheOilMoney.com

Keep in mind that Aldo, and Jay and Joe, and Bobby and others knew nothing about scalping and trading before they joined www.TheOilMoney.com in fact, we don't even try to attract traders who think they know everything already.

I'm not a trader. I'm a real estate investor who filed bankruptcy in 2008 and closed down my mortgage company with offices in Missouri, Florida, and Colorado, as well as my Title Company, Seminar Company, and Real Estate assets in Texas. I made millions in my previous business, and then all of a sudden I didn't.

Learning about oil scalping has created the opportunities that led to founding The Oil Money program, and the reward of showing others how to find their way out of their cubicle or hardship.

If you follow my instructions and learn how to manage your emotions, you can quickly learn how to do this and find the freedom from working for money that can bring joy into your life.

But don't take just my word for it, read what others are saying about their experience with The Oil Money and then decide your next move.

[CLICK HERE FOR REAL TESTIMONIALS](#)

THERE'S NOTHING LEFT TO SAY

If you've read this far and are still not convinced, then there's nothing left for me to say. I wish you all the best in whatever you do next.

I've done my best to give you a preview of what we do and how we do it and now it's up to you to come inside and discover for yourself how you can Live your Purpose and Love your Life by joining us, and saying good by to your cubicle, whatever that may look like.

Click the big YELLOW button below and breath a big sigh of relief. You are now on your way.

YES! Let Me In!

TESTIMONIALS

“Awesome man, yeah im thinking lets let you and jay get his thing off and going and then wait a bit before hitting everyone with something else. Until then man, im living as you preach. Living my purpose and loving my life. Its amazing how a matter of 9 or 10 months can change someone's entire existence. But thats exactly what you have done for me. Once again man, I CAN'T THANK YOU ENOUGH...Not just for the actual trading training but just to open my eyes to a different way of looking at life. You're the best buddy, can't wait to actually spend some time in person with you, bullshitting. Ill definately be talking to you soon.

Joe

“I want to say thanks for offering this service. I've been going through all the videos and practicing on SIM and Replay when I can. A lot of great information on here and I've only been with you guys for a few weeks. I'm probably like most your clients, I have a regular job and work like a dog most days. This hinders my ability to watch the market some days but I'm really enjoying the information and your "No Bullshit" approach to trading. Thanks again.

Cameron R.

“Just to let you know, I watched the 4 hrs of free instructions from The Meditative Trader last weekend and traded sim on Monday. Ended up + \$850.00 after 2 hrs. Tues I went live, but was cautious and made \$140.00, Wed cleared \$80.00 and Thurs \$170.00. I have to go to my day job at 10:00 am central time and have only a couple hrs to trade the usually crazy open on the CI. I knew the information was making a difference in my trades and confidence in making those trades. By Fri I purchased the full program to get all I could to improve my knowledge. I'm only on Day 2 as of now and am looking forward to the next week of learning. I appreciate the 1 year membership here as part of the purchase of the program. Have not been to the chat or really know what is available on this site yet. Thanks Scott and Aldo for giving us all the opportunity to make a major change in our lives. I've had my account for 3 or 4 months but have not been able to be truly profitable consistently. I'm looking forward to financial freedom in My life. Thanks Again.

Jim G.

“This is the best thing I ever did in my life - the course is awesome ! - :)

Seba

“ Well, life is SO much different than sim trading. I guess the only real difference is the emotion. It's was way harder to pull the trigger.

I didn't sleep much, I woke up 5:30 my time so I made some hot tea and got on. I put in a few sim trades first because pulling the trigger for real was tough.

I finally traded for real though, @ 7:16 and got 3 tics. THAT WAS A RUSH MAN! The only thing I can compare the feeling to is being in a big hand for chips. I continued to just sit here and watch the market for a short period, and was content with my win, and then just shut it down. I can't thank you enough for your insight and support over the past few months and look forward to continuing to learn. I am very grateful and pleased to have met you brotha man. Talk to you soon.

Chad

“ I received an email this morning from a company called Trading Advantage with a guy named Larry Levin. I clicked on the email and watched an eight minute video and then opted in with my info including phone number. It was not 30 minutes later that I received a phone call from a representative wanting to sell me a four week training course that would make me lots of money and call all my trades for me. Price tag: \$5,000-\$12,500.

WOW!! And I can learn all the same information from The Meditative Trader program for \$497.00. I just wanted to let you and all our members know what an incredible offer The Meditative Trader is. I paid \$997.00 for it and have made double my money back at least.

Thanks again to you and Aldo!!

"Live like no one else, so later you can live and GIVE like no one else"

Bob

“ I have been SIM trading the gap close on the 10 minute chart. It is so unbelievably reliable its crazy. Now you know i only go for 4 ticks a day. I have just been playing around and getting 10 ticks with my eyes closed. There was a good 40 ticks between the 13 and the current price. Popped in a trade and got 20 ticks. Something you might want to share with the group. Sometimes trading on the higher minute charts is easier for people.

Joe C.

WWW.TRADING-SOFTWARE.ORG

“ A quick little story before I get to my question....

I got up at 5:00 am eastern time this morning and made a great cup of coffee, checked my emails then turned on my chart. I never trade in off hours, but I still turn my charts on to see how things are reacting.....

So I start doing a couple of morning chores that I do every day. As I'm busy doing things I happen to walk by my computer and notice that on my 6E chart has a perfect setup for the "Aldo strategy", so I say what the hell and place a 4 tick trade....all my indicators are pointing in the right direction, so I feel really good about this trade even though its way before my regular trading time... Bingo. I made a quick \$200.00 and I'm not even done with my first cup of coffee! I will do just one more trade today then I think I'll take my pontoon boat down the Connecticut river and do some winter Pike fishing as I watch rush hour traffic go by....My Oh My!!

Thanks for all you guys do!

Jerry

“ A huge THANK YOU to Scott and Aldo. And share some recent success in my trading by using the strategies that I have learned from being a member of The Oil Money and by taking advantage of The Meditative Trader Course. I started the month of December 2011 with an account balance of \$788.73. My account balance today, December 29, 2011 is \$1,947.22. That is a whopping, incredible, absolutely awesome GAIN of 147%. I could not have done this without you guys. My new name is Bobby "3 tick" Knight. Someone once asked, "How do you eat an elephant?" The answer, of course is "One bite at a time".

This recent success has changed my life. Thanks again.

Bobby K.

“ Hi Scott. As I told you that after my first month with you. I have been involved with probably hundreds of offline and online financial and money making opportunities and none can hold a candle to the value you provide to the beginning [or seasoned] trader. Actually, I have spent \$2,000-\$4,000 with 4 separate individuals, including one [Todd Mitchell] who lived with me for a week during my training 20 years ago when I was trying to learn to trade the S&P with TradeStation. The simplicity and consistency of your SX3 protocol has been more confidence inspiring and helpful than anything I have spent time and money on in the past.

Dr. Tom B.

“ Thanks for such a simple and great strategy. I've been really struggling trading/ scalping the ES and TF and have spent thousands on other courses with no luck. This is has been the first thing so far that has worked for me.

Thank you for giving me hope!

Lilly H.

“ WOW..... Friday was a good day !

Glen

“ Made 14 cents today, monday dec. 13th trading 2 contracts. that's \$280.00. be patient, don't rush it, don't get greedy, don't gamble. know when enough is enough for the day. i could have taken another 20 to 40 cents, but i could also have given it back. I'm happy and learning a lot.

Sam A.

“ Thanks for the consistent way you call conservative trades day after day. This is a lifestyle that I can get use to. (Today, with just one trade, I made 15 pennies!) In it for the long haul.

Jan M.

“ Thanks for everything. Not only have I learned a LOT, but I'm retiring at 31...anyone that doesn't join is missing out on LIFE!

Lonnie

“ I think you're doing a fantastic job with the webinars and I love how you keep your cool when it comes to being patient and not forcing trades just because we are on the webinars. Of course, It will be awesome if we have more days like the one where we make 3 huge scores.

Kevin

“ Scott....It worked!.....17 pennies!.....Shorted...got in and out the first 2 minutes (twice) for 12.....then back in and had to wait until 8:11 for it to come back...got out with 5 more....I think we should just stay in initial trade until we SEE a GREEN BAR.....

Thanks!

Bob B.

WWW.TRADING-SOFTWARE.ORG

“ I would have said just like you have been saying cut the darn computer OFF!!!! My wife had to tell me. Did great some days but wouldn't follow my rule or your guide lines and that is after some good trades and hitting a target goal. Cut The Computer Off!!! You cannot stress that enough to the group. Keep up the great work. Can't wait til Jay's report seminar or software comes out. I really just like doing a little 6-E mac daddy trading, oil openings(Glenn) and oil report trading(almost guaranteed money)
Peace,
Irvin Perry

P S —I sound like a trader in this email.

Irvin P.

“ Hi Scott, my name is Chad. I joined your oil money a few weeks ago and am so excited. I've watched the videos and have sim traded a few times now with success. Today I attended your webinar for the first time and will will always try to attend in the future. I like how you always touch on being disciplined and not greedy. Those are so important. I am very happy what I have learned in the few weeks as a member and look forward to learning so much more. I also plan to attend seminars that are available down the road.

I wanted to ask you a question, in a training video I heard you touch very quickly about having an account managed by someone. May I know more about that, if it is an option for me.

Again, I'm very pleased the way you have the oil money running, this is the best and realest thing I have taken on in the years that I have been trying. Thanks so much.

Have a great day,
Please feel free to contact me

Chad G

“ I wanted to say thank you for such a great opportunity to learn from all the people at Oil Money I've been a subscriber for 2 months now and have consistently seen my knowledge in trading growing more and more each week. I have finally gotten to the point in the last week that I have had 5 days of consistent profits in my demo account and I've seen my trading confidence grow with each day. I would like to take the meditative trader course and would appreciate you sending me information about the weblink or whatever info that you send out to members concerning how to join. I look forward to many more months of prosperous trading being a part of the Oil Money subscribers in 2012, God bless you and look forward to your next webinar.

Alphonso

“ Your analysis of me trying to rush the third trade was right on.

i hit for 3 ticks, then 2 ticks (got out early due to wavering close to pivot point) then waited over an hour until a new fist/Mac daddy cross later developed and hit a quick 3. ended up at 100 even for the morning. will keep testing, after 5 for 5 days i will step up to 2 contracts.

Thanks Again,

Mark H.

“ Aldo, Scott, thanks for what you have put together here in this course. I've learned exactly how I can make money every day which has eluded me in the past. I win some and lose some, but with this course, and the support of theoilmoney.com membership, it is a complete package to financial security. I took your advice and have specialized in a single scalp trade and I've never been happier. Before this I was all over the place trying to make something work and nothing did.

Chris L.

“ 3 trades, each for 3 ticks, up 112.50 in 10 minutes, computer off. enough said!
ready to enjoy the day.

Thanks for introducing me to this way of trading. took a while to mentally get under control but this is 3 days of trading in a row with the goal of 3 trades for a total of 9 ticks/day. keeps the fees down and the profits up!

will bump to 2 contracts in December if my discipline holds and this new pattern is ingrained.
Have a great day!

Mark H.

“ I enjoyed the clinic very much. I have to tell you like several other traders, I have spent thousands of dollars learning to trade. By far this clinic has been the most enriching and clear to understand. You and Aldo did an exceptional job and were extremely patient in making sure that we understood the trading strategies that were presented in the clinic. Can't wait to learn more from you and Aldo in future clinics.

Thank you for giving me the tools I need to become financially free!

Rhea

“ It took me a couple of weeks to get it, but now that I've got it I know I'll never work again, LOL, this is fun and I make money every day. THIS ROCKS!!!

Sam

“ So im sitting here just thinking about how my life has changed so much in the past few months and where my life is going. Until i became a member of the TOM, i was a 30 year old bartender, doing ok in life but i really had no direction about what i wanted to do with the next 40 years of my life.....Did i want to be that 50 year old guy serving jack and cokes at the end of the bar????...F*CK NO!!!! But ever since i was 21, thats all i have known, the bar and restaurant business.....then i stumble onto this stupid little website called the The Oil Money and im thinking, “great, just another shmuck looking to get money out of me and not help me”....Lucky for me i take a leap of faith and join.

Now here i am, 4 months later, with a way to make money at my disposal that many Ivy League graduates would be jealous of.....I just want to thank you from the bottom of my heart for being one of the good people in life that actually cares about other people and their well being. I am so grateful and ALWAYS WILL BE....Thats why i want to do everything i can to be as helpful as i can to the group so they can have a life changing experience i had and continue to have....THANK YOU SCOTT, I MEAN THAT!!!!

Joe H.

“ Hey Scott, Awesome morning trading.

after reviewing how well the mac daddy performed with sim trading i went live.

caught 3 tics at 6:10

missed entering trade at 6:50 (let damn dog out)

caught 3 tics at 7:10

lost 7 at 7:30 (nice FIST developed) adapted strategy to "re-tool" for clear trade when fist develops then go back to daddy mac.

caught 7:50 clear trade after fist for 4 tics

double bottom developed so changed over to daddy mac for 3 tics.

Netted out new hybrid strategy and 6 ticks for \$75

thanks!

Mark H.

“ I made \$220 this morning on four trades (30+70 + 50 + 70) on the CL and am calling it quits for today. Good too as I had brought my live account balance down to \$1027. I have bounced off the mat and reentered the fight... Yahoo!

Jay O.

“ I did 10 ticks (\$125) on 3 trades using your DADDY MAC STRATEGY.

P.S. I like that strategy because it's simple....now I just have to continue what I did today and do this everyday and I will be on my way to financial freedom.

Rhea

“ Just wanted to show you how easy it was to get my ticks today. I signed on, had to wait a little bit for a set up to happen. I saw a beautiful fan opening up, confirmed it with my 5, 10, and 15 minute charts, placed my order and a minute later had \$62.50. Now like i said, im still at 1 contract, but in a few weeks, that \$62.50 is going to be \$125, then \$187.50...etc... If you can get people to get the right mind set, trading can be LIFE CHANGING....I'll be honest, i lost some money in the beginning because i wanted to put my own "spin" on things. Then i lost \$1000 and said, you know what....K.I.S.S.....KEEP IT SIMPLE STUPID!!! Now here i am, not lighting the world on fire yet with the amount of money im making, BUT ITS CONSISTENT, and thats the important thing. The money will come, there is no doubt, its just being patient and understanding the rules. :)

P.S. Going to try the Mac Daddy for a few ticks with real money today :)

Joe C.

“ What a fantastic seminar you put on with Aldo.

I was literally at ground zero knowing what all those indicators meant, let alone how to use them. I was seriously concerned starting out that i would get lost and fall behind.

In that short time, before i even realized it i am now confident at understanding how these indicators work and how to use them to reasonably predict where the market should go.

It really is amazing how quickly the emotional part becomes your weakest link not the technical part.

Thanks again. I look forward to promoting this program in my course(and outside as well).

Mark H.

“ Wanted to let you know that today (Monday, Oct 3, 2011) was my first day trading real money and I made \$75 (12 ticks) on the 6B. I did just what you and Aldo spoke about in the Clinic. I took my ticks and got out of the market. I must admit that I could have more ticks on that particular trade, but I was scared of losing money so I exited the trade.

Thanks Aldo and Scott!

Rhea

“ I wanted to thank you again for the great clinic! When I have the patience and read the indicators properly, my trades work. This morning I started out 9 ticks down due to the fact that I thought I saw something, but didn't verify with other charts. At the end of the call I was able to make a gap close on the CL and am now 9 ticks ahead. I look forward to two weeks from now and receiving the copies of some of the clinic. I feel confident that if I follow your strategies I will get rid of the hit and miss that I have been experiencing.

I wanted to let you know that I really enjoyed the clinic with you and Aldo. I learned more during the clinic than I have in the last 6 months taking multiple “training” seminars from others.

Aldo is very patient and is very good at listening and explaining his methods. He also is very clear about wanting to help others succeed at trading. I have a new found excitement about trading and the future looks good.

Thank you very much for the opportunity to learn from the best.

James B.

“ I got my money's worth out of the clinic.

Vernon M.

“ Aldo, I would like to thank you for your great work. I learned more in this week about technical analysis than I learned in 2 years of attending several seminars and trading on my own.

I really mean it. Thanks for sharing your knowledge and for your capacity of pointing out the essential of technical analysis the way you did. I really feel much more confidence when looking to price charts.

Bruno P.

“ I used a combination of the SX3 and Aldo's 'gift' strategy for trading today. While it's a Sim trade, I made about \$1257 dollars (minus commissions, of course.) It's working well.

Ted S.

“ I just want to say Thank You for my new lifestyle... Since July 27 until today Aug 3 I have gained just under \$9000 (only 8 days of trading) trading just the high impact forex reports, Awesome... I really enjoy trading the reports on the CL chart because as you said, it tells me what time I have to be in front of my computer. When trading the reports I only trade 2 or 3 contracts... not too risky. Just want to say Thanks Again for opening my eyes to this new way of life! I think it's one of the best kept secrets on how to produce income! I was self employed in new homes construction until everything fell apart... I Thank God and you, that I found this... I only need about \$6000 a month to live on... \$9000 in 8 days of trading is just awesome!!

Thanks Again!

Jerry P.

“ Great Video! Scott and Aldo you are master motivators!!...

Jerry P.

“ Wowsa, what an amazing system!!! Simply awesome Thanks so much!!

Jim R.

“ Today I saw a beautiful set up around 9:02 AM. My range was at 106.90 and 106.69. When the order was filled I immediately closed (ONE CONTRACT) but was in the red minus -10.

The candle shot down then retraced. One second later huge pressure downward. Just to experiment I sell market and close +80.

Eric R.

“ I started out slow and just listened every day to the call. On my second week I started sim trading and did that for about a month. Every day it became clearer and clearer until I knew it was time to start doing it for real. I know there are no guarantees in life, but following your conservative trading calls every day I know I'll always make money.

Can somebody get this guy an insurance policy? We can't afford to lose him.

Sammy M.

“ Your post on Craigslist was right. I'm not a single mom, but I'm a mom and I'm making about \$300.00 a day trading with The Oil Money every morning.

Thanks guys, I wish I could do something to show my gratitude.

Mary K.

“ I made 7 pennies today. What I learned...I need to make certain that my chart is set up correctly, since the strategies didn't show up. Once the bid is placed, the strategies won't show up. I could have made more if strategies had been in place, but I am thrilled with 7.

Jan M.

“ I just love it, I've been looking for something like this my whole life.

You are great, you call it when it's good and call it when it's bad. Result.....we all make money every day.

Thanks for a great program.

Chris L.

“ Great trade today, my 2 contract trade gained 7 cents.

Because I could sense the excitement and conviction in your voice that the market is going down, I placed my sell order at 86.49 and bought at 86.42.

My atm strategy was stop loss with 8 points; target 1 is 6 points and target 2 is 12 points.

I got nervous in the trade and closed it out manually, simply because I was not in the range of the announced entry point of 86.40.

My reflection on the week:

Each day your analysis of the opening was right on target. I am now clearly seeing the edge's and understanding the concept of pressure build up in the narrow trading range prior to the market open.

What I have seen each day this week is market pressure build-up in the candles prior to the opening and then a surge through the announced edges.

Big Idea: Follow your analysis of the market.

One concern: The conversation of the MACD and Stocastic has been a bit confusing. I subscribed at one time to Investools and they have a huge discussion on MACD, Stochastic and the 20-day moving average. These three indicators need to point in the same "direction" in order to enter a buy or sell on a stock in the market. It does work; however, in the oil trade room we are pinpointing a certain period of the day "the market open" and unless the three indicators coincide and your calls are in harmony, we are going to get mixed signals. If you want to talk about it, I am more than willing to share my investool three indicator experience.

What I do like about the room is the consistent, conservative, one trade, the best trade of the day

approach. The consistency is outstanding. It helps me not be greedy.

Your idea to cut down some of the chatter during the trade zone is a healthy move.

I also included my reflection journal for these last four trade days. I review these journals to help me become a better trader. The mental aspect is huge.

What I have learned is that I want to “force” a trade outside the trading zone and that I need to stay in the your trading zone.

As a side note I left the upper edge atm strategy in place of entering in at 86.86 while typing this email, I got filled at 86.85 and closed it out manually at 86.90. Just made 5 cents. Crazy Awesome!

Joost

“ Having previous experience in trading oil contracts is not necessary with the simple way that Scott from The Oil Money trains and coaches. I am amazed at his genuine devotion to helping all of us make money each day that there is a safe trade to be made. He instructs us to make safe trades or not at all. I love his confidence in making a living by trading, because that is my goal as well. We have all seen what Scott does consistently-make successful trades. I am looking forward to many more successful trades with Scott and The Oil Money.

Jan M.

“ I think you're doing a fantastic job with the webinars and I love how you keep your cool when it comes to being patient and not forcing trades just because we are on the webinars.

Bob G.
